

WFPL-March 2024

Our "**Little Library that Could**", the **Weld Free Public Library**, is off to a wonderful start to 2024!

Our Book Club is back and has already met twice, chatting about **the Authenticity Project** and **Leap Year**.

We are meeting again Thursday, March 28th to discuss **This Other Eden.....**at 6pm at the Library.

It is great fun! Last meeting, we enjoyed some trivia and treats!

We've invited the toddlers and young adults to come in and scavenger hunt for a book and some prizes this spring!

In April, we will host **the Great North American SOLAR ECLIPSE** at Center Hill, in conjunction with State Park Ranger, Casey.

Look for **OUR COFFEE with....**series coming up and, as always, please join us at www.weldpubliclibrary.org online at our website for more information.

MAY brings up a **Barn Quilting extravaganza**, where we will be creating one for the exterior of the Library and then go on the 'trail map' of Maine, where we will be a part of the series of Barn Quilts to find around the state - looking for donations to support the materials for making the barn quilt - you can do that on line at our website!

Every penny helps to keep **our Library a place of Lifelong Learning and the centerpiece of our community!**

Thank you for your continued support! You can find flyers for our events right on our website!
